

EPISODE 52: SHOW NOTES AND ACTION ITEMS

Integrating Emerging and Cross-Cutting Technologies: Vacuum and Automation with Nancy Louwagie and Tom Johnson

Our guests joined us from Normandale Community College in Bloomington, Minnesota. Nancy Louwagie is Educator and National Science Foundation funded project leader and Tom Johnson is an Adjunct Instructor in the Vacuum Technology department.

Our speakers mentioned:

- Vacuum and Thin Film Technology at Normandale, <https://www.normandale.edu/academics/degrees-certificates/vacuum-and-thin-film-technology/index.html>
- Video- Normandale Community College - Vacuum and Thin Film Tech, <https://youtu.be/1zMY4LviBZA?si=8wJ6B0XugKDWpCID>
- Course outline: VACT 1300 Introduction to Vacuum System Automation, <https://www.normandale.edu/files/documents/course-outlines/vact/VACT%201300%20Introduction%20to%20Vacuum%20System%20Automation.pdf>

Additional resources:

- Normandale's VACT 1010 "Foundations of Vacuum Science" class. <https://micronanoeducation.org/resource/vacuum-technology-course-vact-1010-foundations-of-vacuum-technology-at-normandale-community-college/>
- Join a community of vacuum users, <https://www.leybold.com/en/knowledge/blog>
